

PROFILE

Educated in creative as well as STEM related fields, and held positions that are customer-facing, team-oriented, and require a strong attention to detail. Thrives in a role that encourages independence and laser focus under deadlines. Communicates effectively and efficiently within a team, keeping everyone informed while maintaining a warm and kind demeanor that facilitates ease and enjoyment in the workspace. Seeking a Software Engineer role to grow through mentorship, deepen my understanding of my tech stack, and amass new skills.

Full Stack Software Engineering

Nashville Software School | Nov 2020 - May 2021

- Description
 - Intensive, full-time software engineering program learning full-stack technologies by creating applications in group and individual settings
 - Built single page applications using HTML, CSS, JavaScript and React
 - Hands-on, fast-paced simulated work environment, both for individual assignments and team projects
 - SQL Server database, writing database scripts, querying databases
 - Experience with remote collaboration
 - Git and GitHub for version control
- Solo Projects
 - Memo to Demo, Front-End Capstone
 - Single page, full CRUD React application utilizing React hooks to manage state
 - JSON-server used as local database
 - Styling with CSS3
 - Care On Command, Back-End Capstone
 - Multi page, full CRUD, full-stack application
 - ASP.NET for back-end, React and JavaScript for front-end
 - Firebase user authentication

Personal Projects | 2022 - 2023

- Artist Website
 - Single page React application
 - Artist bio section with copy to clipboard email
 - Shows section with tickets button, sold out shows grayed out and buttons disabled

WORK EXPERIENCE

Voice Teacher

Self-employed, Part Time | Sept 2022 - Present

- Began teaching on Zoom regularly, with a few students per week. Each lesson is tailored to the student and their current goals, which are different every time we meet. This has taught me to think on my feet and develop a fast-paced workflow, while encouraging the student and adjusting to what I'm hearing in real time.

Family Caregiver

Full Time | May 2021 - Present

- Relocated to hometown of Milwaukee from Nashville to assist in care for a family member with ongoing medical issues.

Customer Care Representative/Scheduler

Smile Direct Club, Full Time | Dec 2019 - April 2020

- Received inbound calls for customer care, conducted outbound calls for scheduling of appointments. Wrote scripts for live calls and voicemails. Worked with Five9 software for inbound and outbound calls, as well as JIRA for specific ticketed tasks involving other departments. The biggest skill I learned from this position was how to manage a variety of situations with customers and troubleshoot to resolve their concerns.

ACTIVITIES

College Leadership

Vice President, *Prismatics A Cappella*

Vice President of Admin. Relations, HOPE Council

Vice President, Gender Equality Movement

I was a founding member of two of these groups. I oversaw recruitment and retention of members and community outreach. I also led meetings, coordinated with guest speakers, helped cultivate relationships with faculty and other student groups, and organized events and travel.
